Faculty Development Programme On Learner Centric Approach

Date:25/11/2019 to 25/11/2019

Place: Class room& Seminar Hall

Resource Person: Prof.Ramalakshmi and Dr.Md.Imruzddin

Event Report:

Faculty Development Programme on Learner Centric Approach was conducted by the Krupanidhi Group Of Institutions. Dr.Selva Kumar guided participants regarding Learning Goals, Learning Outcomes and assessment. Participants developed Learning Goals and Learning Outcomes for the subjects they teach in the class as an activity. He also covered use of Videos, Visual Aids for effective teaching He also guided regarding Voice Modulation, Body Language, and Technology.

The FDP was activity based in which participant learned various techniques to make teaching effective and learner centric.

Principal

Krupanidhi Group of Institutions
12/1 Chikkabellandur Village,
Carmelaram Road Post Varthur Hobli
Bangalore - 560 035

Topic covered day wise –

Day 1 –

- Motivational techniques.
- Teaching Strategies to facilitate active learning. Instructional planning and Evaluation methods.
- Outcome-based education.

Day 2 –

- Constructivist Approach.
- Professional ethics and Classroom Communication.
- eLearning, Blended learning and Flipped Learning Techniques.
- Role of ICT and Use of Technologies in teaching and learning.

Day 3 –

- Preparing and using animations in teaching.
- Traits of an effective teacher.
- New Pedagogical approaches in Higher Education.
- Issues and Challenges in Higher Education.

Day 4 –

- Strategies for enhancing Women enrolment in Higher Education.
- Best Practices in learner-centered teaching

FDP - WEBINAR ON
EMOTIONAL INTELLIGENCEMBA

Dates : 07.04.2020 to 08.04.2020

Resource Person: Pradeep B

Director - Human Resources,NameKudelski Group

FDP – Webinar on Emotional Intelligence

Date :7th & 8th April' 2020

Place: Online (Microsoft Team)

Resource Person: Pradeep Bangalore, Director - Human Resources, Kudelski Group

If You are Tuned Out of Your OWN EMOTIONS,

You will be Poor at reading them in OTHER PEOPLE.

"It takes something more than intelligence to act intelligently."

Objective:

Emotional intelligence can lead us on the path to a **fulfilled** and **happy life** by providing a framework through which we must apply standards of intelligence to emotional responses and understand that these responses may be logically consistent or inconsistent with particular beliefs about emotion

Activities:

➢ Various **Activities** was conducted in the E- Learning Module to demonstrate the significance of Emotional Intelligence in understanding and managing one's emotions as well as others'.

➢ A **Presentation** was shared to convey the message that emotional intelligence is made up of four core attributes that pair up under two primary competencies:

PERSONAL COMPETENCE SOCIAL COMPETENCE

- Self – Awareness • Social Awareness
- Self- Management • Relationship Management

Outcomes:

➢ The E- Learning Module focuses on 4 Core Areas:

- Being **Self-Aware** is all about understanding oneself. It can be developed by identifying one's strengths and limitations in order to recognise areas where you need to enhance and intentionally nourish in that very aspect.
- **Self-management** goes hand in hand with self-awareness so that you are able to control your own emotions and not being controlled by them.
- **Social awareness** is the ability to accurately read situations and people. This can only occur when you are aware of your own emotions. An important part of social awareness is the ability **to empathize with the**

people around you. This means that you are able to understand and appreciate why someone feels the way they do.

- **Relationship Management** is your ability to use **awareness of your emotions** and the **emotions of others** to manage interactions successfully. **Clear communication**, **inspiring** and **influencing others**, **working well in a team**, and **managing conflict** all contribute to relationship management.

KRUPANIDHI GROUP OF INSTITUTIONS

FDP on "Machine learning using Python"

Date: 2nd to 6th March, 2020

Place: Seminar Hall

Resource Person: Dr. Krishnan

Event Report:

From the 2nd to the 6th of March, 2020, the Department of Computer Application hosted a one-week Faculty Development Program (FDP). The FDP on "Machine Learning with Python," a cutting-edge technology, was organised for MCA and BCA professors.

On Day 1, the training began with an introductory session. Dr.Krishan and the resource persons were handed seedlings as a warm greeting. Prof.Priya Thomas, Convener, gave a welcome talk and explained the concept of the FDP to the audience.

Introduction to Python and problem solving in Python were the topics addressed in session 1 on Day 1. Pandas for handling datasets, Numpys for using mathematics libraries, and Matplotlib for visualisation using Jupyter notebook were covered in Session 2. The trainer taught the concept for each piece of content before participants put it into practise.

On Day 2, the first and second sessions discussed Machine Learning and its classification. The sessions discussed machine learning algorithms for prediction.

Principal
Krupanidhi Group of Institutions
12/1 Chikkabellandur Village,
Carmelaram Road Post Varthur Hobli
Bangalore - 560 035

Image processing, face recognition, and an introduction to deep learning were among the subjects covered in sessions 1 and 2 on Day 3.

On Day 4, the trainer continued the topic of deep learning in session 1 and covered the concepts of feed forward and back propagation, text analysis/NLP using Tensor flow, and sentiment analysis using Tensor flow in session 2.

Advanced subjects such as Long Short Term Memory (LSTM) and Generative Adversial Networks (GAN) were covered on Day 5.

For greater clarity, all of the algorithms covered by FDP were also explained through a thorough hands-on session.
The FDP ended with a thanks giving ceremony by the Principal.

FDP ON RESEARCH METHODOLOGY USING SPSS & MS- EXCEL

Date: 2nd September 2019 to 6th September 2019
Place: Board Room
Resource Person: Dr. Rudrappa

Event Report:

Under the auspices of IQAC, a three-day FDP titled "Research Methodology using SPSS & MS Excel" was held at the college. The ceremonial inauguration programme took place in the seminar hall on September 2, 2019.

Prof. Ramalakshmi, IQAC Co-coordinator, welcomed the audience, and Dr. Sarita Iyer, IQAC member and FDP Coordinator, described why the FDP was held. In the presence of the resource person, Dr. Rudrappa, the Principal, Dr. Pravesh Soti, inaugurated the FDP by lighting the lamp. In his inauguration presentation, the principal praised the IQAC's achievements and noted how the nature of research is changing; how research was conducted 20 years ago is not the same as it is now. As a result, KGI believes in not only teaching our college's scholars, but also college professors.

The titles of various sessions were:

Day 1 -

✓ Data preparation and cleaning, as well as coding Adding New Variables and Correcting Outliers (Use of MS-Excel and SPSS).

✓ Descriptive statistics, dummy variables, and missing value treatment

✓ Visualization Hypothesis Formulation, T-test, Z-test, Chi-square test, ANOVA (Use of MS-Excel & SPSS).

Principal

Krupanidhi Group of Institutions
12/1 Chikkabellandur Village,
Carmelaram Road Post Varthur Hobli
Bangalore - 560 035

Day – 2

- ✓ Establishing a link between the study subject, the literature review, and the research gaps and objectives (Lecture).
- ✓ Establishing a link between objectives and questionnaires, as well as establishing a questionnaire (Lecture).

Day - 3

- ✓ Chronbach's Alpha Validity and Reliability Pilot Testing (Use of SPSS & MS- Excel).
- ✓ Visualization of bivariate analysis, creation of hypotheses (Use of SPSS & MS- Excel).

Day - 4

- ✓ MANNOVA, Paired T-test, and Multiple Regression (using SPSS and MS-Excel)
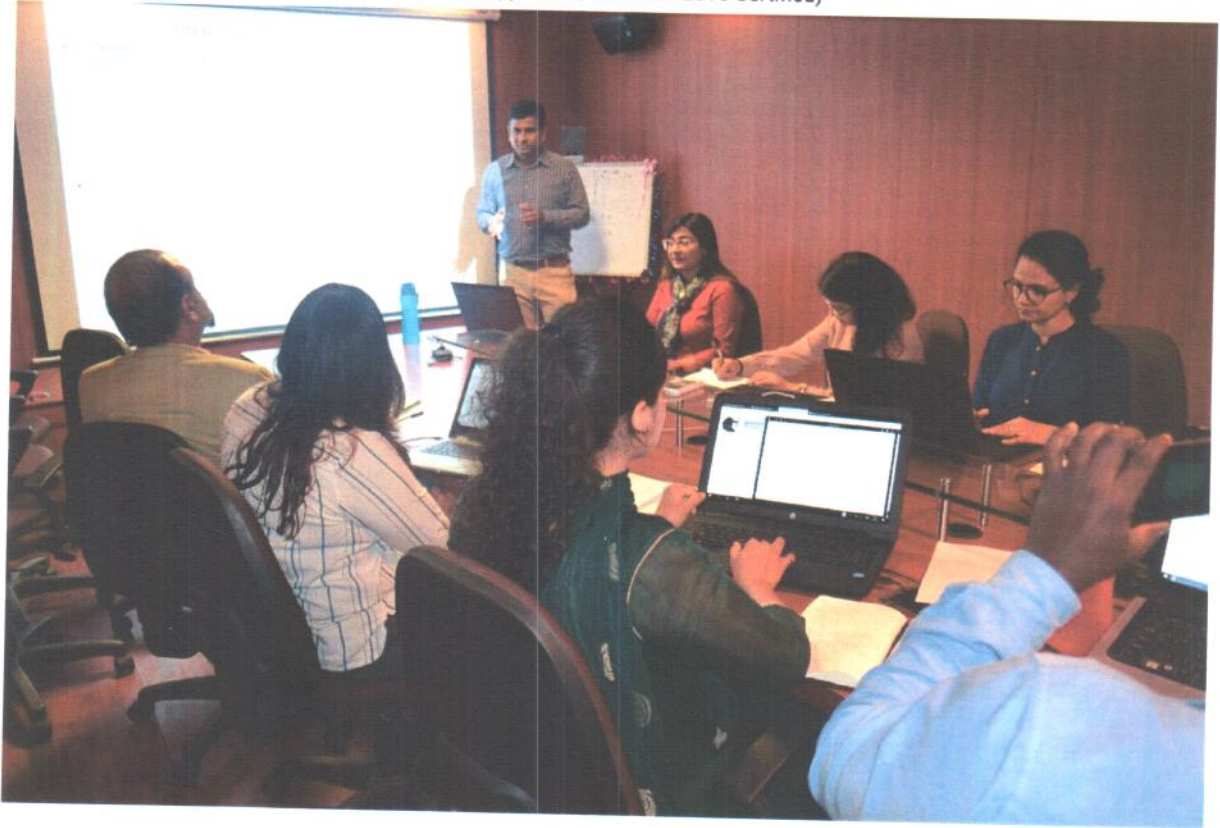

Day - 5

- ✓ Compiling and presenting the results of the data analysis and interpretation (Lecture).
- ✓ At the end the resource person address the participants with their doubts and query

FDP Webinar :Take Control of Your Learning and Development - The Upskilling Approach

Date: *20th April' 2020 to 24th april 2020*
Place: *Online (Microsoft Team)*
Resource Person: Ms. Bismita Patnaik, Corporate Trainer

"Tell me and I forget, teach me and I may remember, involve me and I learn."
– Benjamin Franklin

Event Report:

Objective:

The goal of this session is to make you realise the value of learning in both our personal and professional lives. This lockdown has given us all the opportunity to reflect on ourselves and self-analyze the areas in which we need to improve. One of the most significant aspects of learning is that it allows you to expand your knowledge and develop abilities that will assist you in achieving your objectives.

Activities:

➢ A simple personal Performa was distributed to allow individuals to question themselves and establish goals to develop based on their introspection.

➢ A presentation was given to the audience to emphasise the significance of learning and to explain what up-skilling entails. It would undoubtedly make them recognise the benefits of learning and up-skilling for both their personal and professional lives.

➢ A motivating film was shown to them to demonstrate the need of devoting time to honing their talents and upgrading themselves in response to the obstacles they confront in their personal and professional life. These details, we believe, would have been well worth discussing in order to encourage participants to invest quality time in learning and skill development.
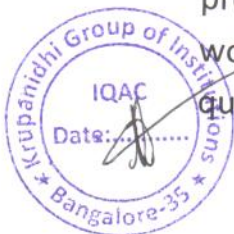

Outcomes:

Learning is a necessary tool that feeds our minds and calms our spirits. It is necessary for both personal and professional careers since it allows us to better comprehend and handle situations in life. The following are some of the key messages conveyed by the speaker:

• Learning is necessary for increasing your income and position;

• Learning is necessary for gaining access to new opportunities

• Learning boosts self-esteem

• It aids and develops your growth curve.

• Learning is critical to reaching your objectives.

• The significance of education in making you happy

• Importance of education for personal growth

• The value of education in professional development

Professional Development" for Non-teaching staff

Date: 21.10.2019

Resource Person :Ms. Jayati Desai

Organized By Department of MBA

Date:21/10/2019

Place: Class Room

Event Report:

Objectives:

- To familiarise teachers with various subjects and areas of expertise
- Faculty members will be exposed to hands-on training sessions in a variety of workshops. Faculty members will be exposed to hands-on training sessions in a variety of workshops.

1st Session:

Dr.Jayati Desai presented a workshop titled "Social Media Influence on Education" at the Department of Business Management. The resource person stressed the importance of media restraint and cited examples of young people misusing it, which has a negative impact on their health.

2nd Session:

"Becoming a Better Teacher" is the topic of the second session. Prof.ParamjitSujlana, Faculty KGI, was the resource person. She stressed the need of cultivating curious, value-driven, and achievement-oriented minds, as well as the role of teachers in helping our country reclaim its pre-eminence.

The event was ended by the principal with a thanks giving note to the resource person.

Carmelaram Road Post Varthur Hobli
Bangalore - 560 035

Technical Session I:10.00 Am to 11.00 Am

Name of the Resource Person: SiddarthMisra, CL Educate, Bangalore

Topic: Copy Rights

- Dr. Siddarth has started his presentation by describing the basics of what is intellectual and asked students about the skills that students usually posses (singing, dancing, movie making, artistic, photography etc). He further explained how to identify what is the Intellectual.

- He explained about the current world scenario in protecting the intellectual property and described the examples of number of products (neem and curcumin) on which India has lost its control in international market.

- Dr. SiddarthMisra has also talked about the Trademark, different trademark types and how that represents a particular product or company.

- Heexplained the difference between trademark, trade secret, copy right and who will be eligible to own it. Patent, trademark, and trade secret are industrial properties and copyright is an individual property.

- He explained about the copy right Act introduction in India, its terms and conditions and laws governing infringement in both civil and criminal cases.

Principal
Krupanidhi Group of Institutions
12/1 Chikkabellandur Village,
Carmelaram Road Post Varthur Hobli
Bangalore - 560 035

- He gave some example of literary, dramatic, musical, artistic, novels, poems, computer databases and sound tracks etc..that can be subjected to copy right protection.

Technical Session II: 11.00 AM to 12.00 AM

Name of the Resource Person: SiddarthMisra, CL Educate, Bangalore

Topic: Patent and Trade Mark

- Dr. SiddarthMisra explains patent as an exclusive right granted for an invention, product or process and offers a new solution for a problem.
- He explains that the patent is based on the novelty, inventiveness and useful ness.
- Patents can be a reward, and provide incentives for materialistic growth and which in turn increase research culture, quality of research life and technological development
- Patent helps the inventor to recover the money spent on research and development
- Patent searching helps the investigators be aware of the similar lines of research and can avoid such redundancy in the knowledge of scicene and technology
- He explained the different types of trademarks (name, slogan, shape, symbol, color, structure etc..)
- Trademark is an exclusive right for the company on business name, creates a face values, legal recognition, remedy in case of infringement.

Interaction section: 12.00 PM -12.30 PM

During this interaction sessions students interacted with the mentors to ask their doubts regarding the publication process and how they are useful in their career and higher education.

Lunch Break: 12.30 PM to 02.00 PM

Technical Session III: 02.00 PM to 04.00 PM

Name of the Resource Person: SiddarthMisra and Dr. Namrata Nanda, CL Educate, Bangalore

Topic: Patentable inventions

- Dr. Namrata Nanda and Dr. SiddarthMisra jointly handled this post lunch session.
- The speakers have exhibited some videoclippings which represented the patentable products designed by college students of India.
- Among them, an alcoholsensor which can be fixed in the helmet was shown to help reduce the chances of accidents by preventing the rider to take the bike.
- A portable device to count Complete blood count was developed which is a very easy way of testing pathological conditions at any place.
- IIT madras students developed under water autonomous vehicle which can be used to prevent pollution, breakages.
- IIT roorke students developed inflatable helmets which can prevent bike accidents.
- They also discussed about the Artificial intelligence in gaming like Chess (Square off).
- They demonstrated videos aboutGayam Motors developed by RajaGayam, an Entrepreneur for IIT Hyderabad who has developed electric power empowerbicycles which can be used for easy transportation and eco friendly nature.
- Finally they inspirited the students to think innovatively and protect their intellectual properties.

Workshop on Art of writing research paper

January 22, 2020

KGI organised a Workshop on "Art of writing research paper " for MBA and MCA students on January 22, 2020 at KGI. Mr. KHetejVerma, Director TBM as the resource person.

Introducing the significance of research He said, "Research not only generates useful insight and confidence but also acts as a stimulant for academic growth. Sound conceptual understanding of various research methods, research instruments, tools and techniques is an essential prerequisite for conducting empirical research."

He introduced various techniques of conducting a research. He explained what a research design is and discussed its subdivisions in the form of Descriptive, Exploratory and Experimental Research Designs. The whole 'Research Process' was discussed along with its elements like definition of the problem; Development of the approach to the problem and then formulation of a Research Design. He explained the ingredients of each research design with explicit details regarding collection of primary or secondary data; Framing a Questionnaire and selection of a sample. He also explained the concept of Literature review which is one of the most vital parts of the research endeavour.

The workshop consisted of both theory and practical knowledge. He clearly conveyed to the students on how to write the format that must be followed in citing a book, journal, article, websites, case studies, reports, international & national documents and periodicals, single author to many others through APA style and other styles.
