FDP - Webinar on pedagogical advances and ICT applications in education

Date: 10/08/2020 to 12/08/2020

Place: Online

Resource Person: Dr.Prakash A

Event Report:

OBJECTIVES

- To develop an understanding about innovative Pedagogical skills
- To Equip the Faculty with Various Pedagogical tools & Techniques
- To Apply ICT in Pedagogy of different subjects

The faculty came to know about various pedagogical Innovations and Utilizing various ICT tools to upgrade their pedagogical skills The participants got an idea about Artificial intelligence to bring teaching effectiveness.

It was observed that while conducting any online activity, the technical support must be well structured. The shortcoming of this FDP is that the some of the Registered participants did not attend the Webinar. The retention of the participants in the meeting falls and fluctuates.

The day wise topics are –

Day 1 –

- Meaning & nature of ICT
- Definition of ICT
- Components of ICT
- Need of ICT

Day 2 –

- Importance of ICT like Mass education, Historical information, Gaming and simulation, Distance education, Collection, storing and retrieval of information.
- Use of ICT like Teaching aids, Improvement in quality of education, Self Learning, Reinforcement, Individual teaching, Effective teaching Co-curricular activities

KRUPANIDHI GROUP OF INSTITUTIONS

FDP on “Web 2.0: A New Wave of Innovations for professional development of teachers”

Date: 25 to 27 February 2021

Place: Class room

Resource Person: Dr.Selva Kumar

Event Report:

KGI hosted a Faculty Development Program on "Web 2.0: A New Wave of Innovations for Teacher Professional Development" from February 25 to February 27, 2021. Teachers are in a position to instil the new wave of technologically based inventive talents. Faculty development programmes like these would undoubtedly assist teachers in enhancing their ICT domain skills. Using contemporary web tools in the classroom will undoubtedly help teachers coordinate their efforts to make the teaching-learning process more engaging and simple. The 'i-generation' is the name given to Generation Alpha. This most influential generation of learners in the twenty-first century would benefit the most from a technologically oriented teaching-learning system. Generation Alpha is the first generation to be born with iPhones, iPads, and other mobile devices. With Alexa, Siri, and Google Assistant in their home, they are thriving. As a result, 'A' and 'B' generation teachers [aged 35-50] are required to study technology in order to teach and please the 'C' generation.

FDP on ICT Tools for E-Content Development

Date: 20th & 21st Oct, 2020

Place: Online

Resource Person: Dr.Padmavathi (IIT KGP)

Event Report:

Objective : This FDP on E-content development provides a platform for learning the skills and strategies required for designing and developing digital teaching and learning resources. Its goal is to empower teachers with the knowledge and abilities they need to respond to today's learners and their learning styles. Prof.Ramalakshmi, IQAC coordinator, began the day with a prayer, followed by Prof.Priya Thomas, Head, Department of Computer Application, giving a welcome address and discussing FDP dynamics. Dr.Saravana, Associate Professor, gave an introduction to the guest. The speaker talked on how to make podcasts that may be used to teach languages and how to summarise lectures, as well as how to make video lectures using several methods like TableTop, ScreenCast, and SlideCast. He talked about video editing software like Open Broadcaster Software Studio (OBS Studio) and audio editing software like Audacity. The workshop ended with the participants being given a series of tasks to complete in order to make their audio/video lectures and send them to him for approval through the organisers. The participants eagerly experimented with various ways of e-content creation and presented their work for critique.

The second day's programme began with a welcoming presentation by Ms.Nivedita, Assistant Professor, followed by an evaluation of the participants' work by the speaker. He offered suggestions for improving the content's quality and underlined the importance of using legitimate sources for images and videos in e-content, as well as ensuring that copyright rules are carefully adhered to. Dr.Sarita, Assistant Professor, gave a vote of thanks at the close of the event. The participants provided feedback, and E-certificates were mailed to the participants. The programme was generally favourably received by the participants.

MS TEAM TRAINING FOR TEACHING STAFF(2020-21)

KRUPANIDHI GROUP OF INSTITUTIONS organized a training session for Teaching Staff on the topic " MS TEAM TRAINING FOR TEACHING STAFF" from 9.30am to 11.30am on 06th and 7th of October 2020 .

The resource person for the training session was Dr. Mary Sumathi .

Ms. Sogara, HOD, Department of Commerce (UG) welcomed all the members. Our Dean, Prof. Shyjan. P. M, KRUPANIDHI GROUP OF INSTITUTIONS, addressed the Teaching Staffs. He emphasized on the importance and usefulness of the Topic. He also motivated staff to make use of MS TEAM Online platform .

During the session the Resource person spoke about how to use MS TEAM online platform and how Class Teams can be used to create collaborative class spaces, provide a virtual meeting platform, facilitate learning with assignments and feedback, and lead live calls with students. The following aspects were covered during the session:

1. How does Microsoft Teams work for classes?
2. Class teams have unique permissions and features for teachers and students. As owners of the team, teachers assign work, share class content, start meetings, and control who can post in the team. Each class team is also linked to its own OneNote Class Notebook.
3. What are the Microsoft Teams features?
4. Teams and channels. ...
5. Conversations within channels and teams. ...
6. A chat function. ...
7. Document storage in SharePoint. ...
8. Online video calling and screen sharing. ...

The training programme for the teaching staff motivated them and helped them to learn how to use MS TEAM comfortably and overcome the challenges to teach online due to pandemic.

At the end of the session, a few participants from teaching staffs gave their feedback explaining how the program helped them to learn to use MS TEAM and the session created a urge for learning of a new online platform.

Event Report:

- To learn beyond books and classroom
- Active learning in the classroom

To aware faculty about present generation learning characteristics and the need for changing the present teaching style to suit their learning needs An International Workshop was conducted on “Beyond learning: Actively learning in the classroom” by Ms. Sukanya, Trainer KGI on 18 January, 2016. She created awareness of present generation learning characteristics and the need for changing the present teaching style to suit their learning needs. She emphasized on four facets that is content, delivery, logistics (planning) and people for effective teaching learning. She also presented various active learning techniques and technologies to reinforce and engage the students for effective teaching-learning process.

TRAINING FOR NON TEACHING STAFF(2021-2022)

Training--“Basics of Computers” on 12th November 2021 at 9.30am in Computer Lab 1

Krupanidhi Group of Institutions organized a training session for Non Teaching Staff on the topic “Basics of Computers” from 9.30am on 12th of November 2021 in Computer Lab 01.

The resource person for the training session was Mr. Narasimha Murthy, Assistant Professor, Department of BCA. Sir is well equipped and is known for his expertise in the field of computers.

He emphasized on the importance and usefulness of the computers. He also motivated staff to make use of computer lab during their free hours and instructed BCA faculty to teach when they approach for help and also promised to organized more session for the development of Non Teaching Staff.

During the session the Resource person spoke about the need and importance of the computer in the current world and hands on training was given to all the non teaching staff in computer lab. The following aspects were covered during the session:

1. What is a computer?
2. Basic computer knowledge is about how computers work and how to use them. This may include typing, learning keyboard commands, powering a computer on and off, knowing how to connect and disconnect the Internet to a computer. It can help you understand different operating systems and application software.

3. The five basic operations that a computer performs are input, storage, processing, output and control.
4. Word document
5. Excel – Basics

The training programme for the non-teaching staff motivated them and helped them to learn the basics of computers.

Ms. Namitha, Assistant Professor, Department of Management proposed the vote of thanks.

At the end of the session, a few participants from nonteaching staffs gave their feedback explaining how the program helped them to learn basics of computers and the session created a urge for learning and development of computer skills.

ERP SOFTWARE TRAINING

Krupanidhi Group Of Institutions organized a training session for Teaching Staff on the topic “ERP SOFTWARE TRAINING” from 02.30pm to 04.00pm on 12th of August 2021 to 13th August 2021.

The resource person for the training session was Ms. Nisha Poojary and Ms. Shwetha Hadimani

Our Principal, welcomed all the members and addressed the Teaching Staffs and both the resource persons. He emphasized on the importance and usefulness of the Topic. He also motivated staff to make use of ERP SOFTWARE.

During the session the Resource person spoke about how to use ERP SOFTWARE and also described about ERP software that it is a tool that centralizes an institution’s database of information, automates routine tasks and simplifies academic processes. The end goal in using this tool is to optimize operations and free up faculties time to work on more instinctual tasks. These objectives can lead to an increase in efficiencies while improving communication across with the students and parents.

The following aspects were covered during the session:

1. Training of Lesson Plan: Create, Approval and Execution
2. Training on Marking Attendance on ERP Software

REPORT ON WORKSHOP ON SPSS

Statistical Package for Social Sciences is the need of the hour in every domain. SPSS Statistics is a software package used for interactive or batched, statistical analysis. SPSS (Statistical package for the social sciences) is the set of software programs that are combined together in a single package.

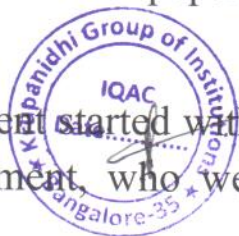

The basic application of this program is to analyze scientific data related with the social science. This data can be used for market research, surveys, data mining, etc.

With the help of the obtained statistical information, researchers can easily understand the demand for a product in the market, and can change their strategy accordingly. Basically, SPSS first store and organize the provided data, then it compiles the data set to produce suitable output. SPSS is designed in such a way that it can handle a large set of variable data formats.

Keeping this in mind, Department of MCA conducted a workshop on SPSS with hands on training. The guest for the workshop was Prof. Ramalaxmi.

Prof. Ramalaxmi is from the Department of MBA. Prof. Ramalaxmi is a faculty from Krupanidhi Group of Institutions. She has published many research papers and has a profound knowledge on the use of SPSS.

The event started with a warm welcome by Ms. Jissy Thomas of MCA Department, who welcomed the Principal, Dr. Pravesh Soti, guest,

Pravesh Soti

Prof. Ramalaxmi, and all the participants. She introduced the guest and walked everyone through the profile of the guest. Dr. Pravesh Soti, Principal KGI, spoke a few words on the occasion, the use of the SPSS and how SPSS no more is just restricted to social science domain, but also used extensively by other subject experts as well. He also gave a brief introduction of the guest and the experience, and knowledge she carries for the subject.

The guest then took over the session. Prof. Ramalaxmi, started off with meanings and use of few basic terminologies used in the field of research. She then explained how an analysis is done, the different questions to be considered for any analysis, how to categorize and frame the questions. Then the guest showed how with the use of SPSS software the graphs can be generated. She asked the participants to use the data and implementing the same.

There were around 100 participants for the workshop. The participants were keen about knowing the implementation of SPSS and found the session very useful.

Finally Ms. Athulya Francis, gave a vote of thanks extending thanks and gratitude to the guest for the day, the Principal, for organizing, and faculties for arranging and finally the enthusiastic participants for the active involvement

Examples of the Measurement Scales

Ordinal	Interval	Ratio
Classification data: e.g. Male / Female	Ordered but differences between values are not important	Ordered, constant ratio, but no natural zero
No ordering: e.g. in Indian air name to state that M > P	e.g. Political parties on left or right spectrum given labels 1, 2, 3	Differences matter, but ratios do not
Arbitrary labels: e.g. ME, W, L, etc	e.g. Likert scales, such as a scale of 1-3 year degree of satisfaction	e.g. Temperature (C/F), Chess

What is a natural zero? Some scales of measurement have a natural zero and ratio scales. For example, height, weight and mass have a natural zero. Consequently, it makes sense to say that 200 is twice as tall as 100. Both of these variables are ratio scales.

On the other hand, time and temperature (C) do not have a natural zero. The year 0 is arbitrary and it is not sensible to say that the year 2000 is twice as old as the year 1000. Similarly, we can arbitrarily pick the freezing point of water as 0 and it again does not make sense to say that 200C is twice as hot as 100C. Both of these variables are interval scales.
