Topic: Webinar on Acing Virtual interviews

Introduction:

The Webinar on acing virtual interviews was conducted by Ms.Palak Kohli with the objective of aiding students in cracking interviews.

Content:

The Webinar on acing virtual interviews was conducted in association with the placement department of Krupanidhi School of Management. Virtual Interviews are becoming the norm for most companies therefore it becomes important to equip the students with proper techniques for

The session commenced with Ms.Kohli emphasizing the importance of first impressions and introductions. The key to acing this part of the interview process is practice and building confidence in oneself. The speaker continues the session by providing light on the right attitude and mindset required to be a professional in the industry including some entrepreneurial traits.

The next part of the webinar was dedicated to understanding the strengths, weaknesses as well as the hobbies/interests of the students. The Assessment of one's own skills and abilities and aligning them with the company's needs are key in getting noticed and being identifiable.

Industry exposure through work experience can also greatly help in developing one's skillset.

The Star method for behavioral questions was discussed next along with the understanding the why one wants to work at a company. Mentioning the organization's future growth and how you wish to contribute to the company and its progress helps to realize the twining of individual and company goals.

The closing segment of the webinar included how to provide an example of showing teamwork and being a team player

TOPIC: Communication and Networking

INTRODUCTION

The online workshop was taken by Ms. Aakashi shera who discussed about communication and networking and importance on improving ourselves for a better career

11/12/2021

The workshop focused on fresher's, what, when, & how should one start to prepare themselves. It emphasized of the fact that MBA students should start grooming themselves from the first semester, this session created awareness on the importance of networking and communication skills for better prospects. Students aspiring to become future entrepreneurs or business owners had great deal to learn & enhance. The workshop was great value for students' knowledge kitty. The workshop helped in enhancing the students' communication skills like tone of voice, active listening, effective interview communication, how to build a professional network, effective verbal communication and a lot more.

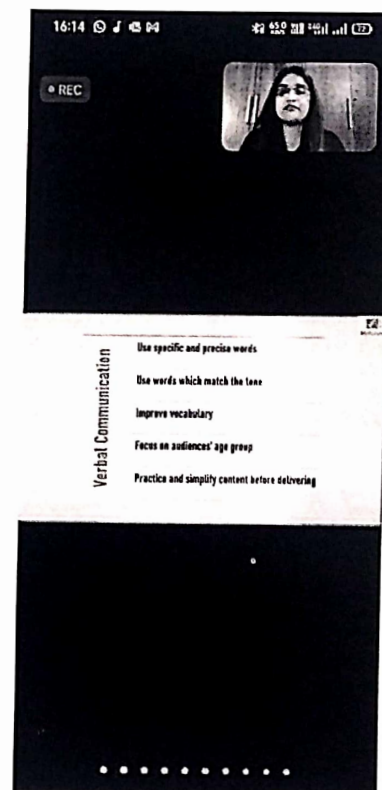

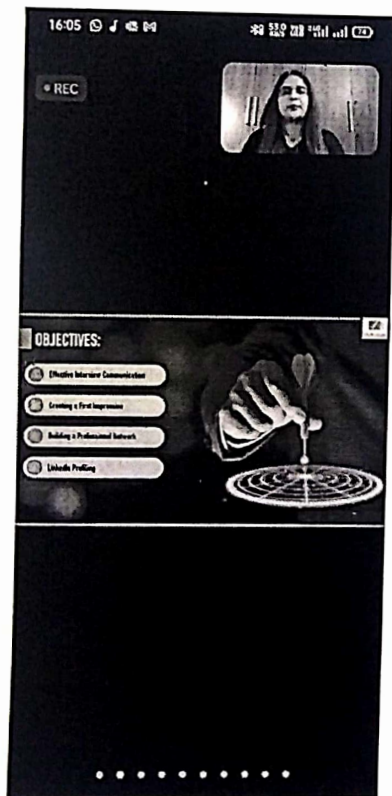

CONCLUSION

The whole session was really informative -witnessed a lot of good feedback. We always forget about the importance communication. Nonverbal communication is more powerful thanverbal communication because we express ourselves through body gestures every single day.

Even if we are conscious of our own actions. The session was thought provoking and to the point that it was relatable at so many levels. The kind of importance of nonverbal communication was made clear through the presentation very well. It helps one to evaluate the effectiveness of nonverbal communication even though verbal communication is given more importance. The session was much helpful in understanding the merits of being able to communicate non-verbally. Nonverbal communication and our appearance should be observed with keen interest so that we may be able to decode the underlying structure of our behaviors which conveys certain ideas to others.

Report on Case Study Practice Session

Date: 05/02/2022

Venue: Online

Time: 5:00 PM to 7:00 PM

TOPIC: Practical sessions on Case Study.

INTRODUCTION

This session was taken by Dr. Srinivas Chunduru who discussed about case interviews and how to crack such interviews.

05/02/2022

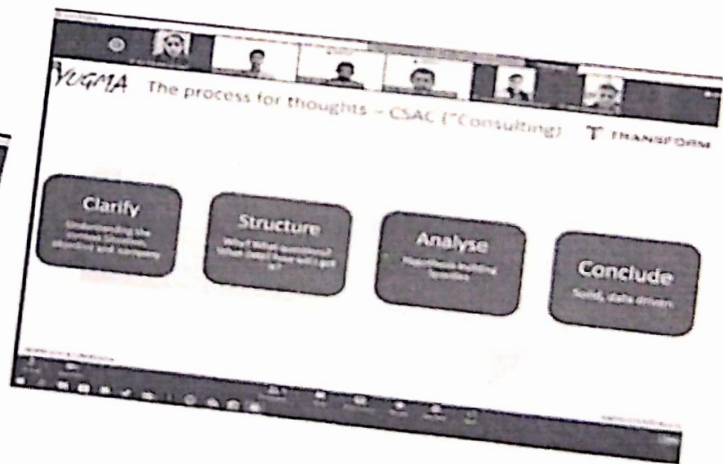

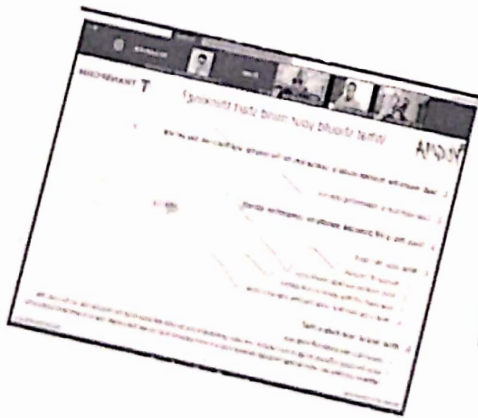

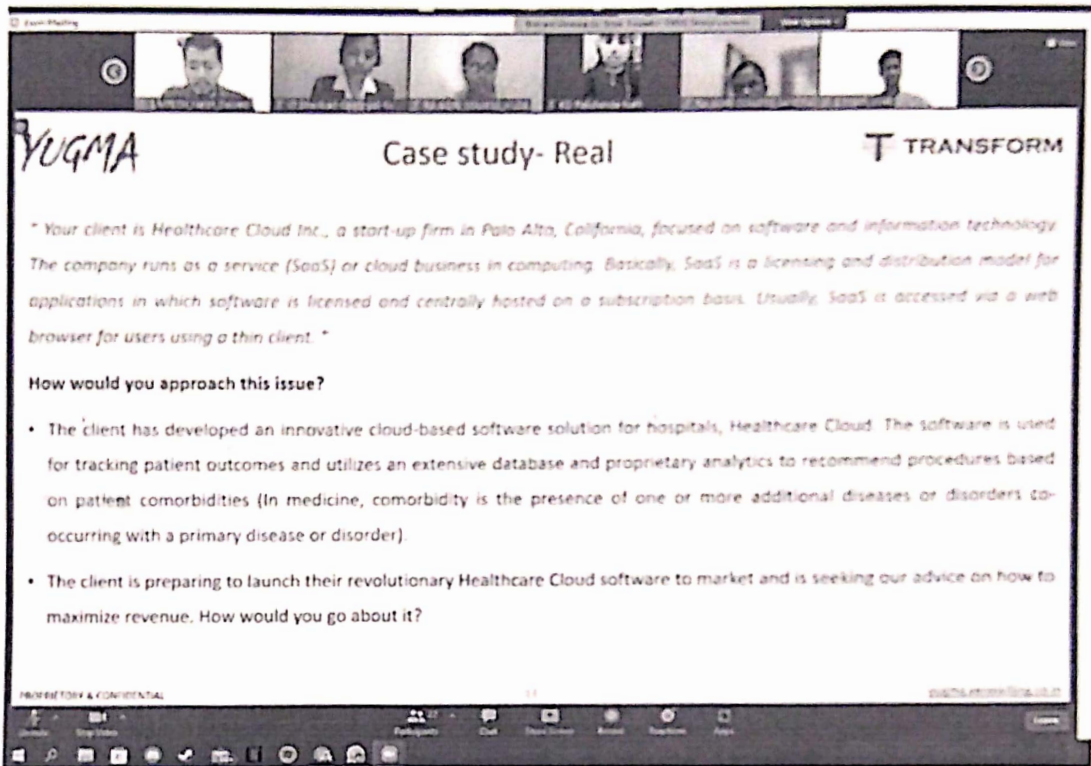

In this session the speaker mentioned about the significance of case interviews that has been a part of management consulting interviews for MBA students in order to get better job opportunities. During this time, he focused on how to prepare ourselves for cracking such interviews and what all methodologies would be useful for it.

CONCLUSION

The whole session was really informative -witnessed a lot of good feedback. We always think of preparing for interviews but we dont focus on procedures and methodologies. The session by Sir was wonderful and to the point that it was relatable at so many levels. The kind of examples he used in the session was knowledgeable and thought provoking and was made clear through the presentation very well. It indeed helped each and everyone to analyse and evaluate on how to take on case interviews. One of the best examples were CSAC, which means **Clarify, Structure,**

Analyse and Conclude. The session was much helpful in understanding the steps that were used to solve the case interviews.

Report on Handwriting for positive personality

Date : 22nd January 2022
Venue : Sparta (MBA block)
Time : 12:30-1:30pm

OBJECTIVE: Analysis of handwriting with attempt to determine someone's personality traits

Introduction: The session was organized on Occasion National hand writing day on Jan 23rd '22.

Handwriting analysis involves three key stages including the analysis, comparison, and evaluation of the handwriting characteristics.

Step 1: Analysis. ...

Step 2: Comparison. ...

Step 3: Evaluation.

Graphology is the analysis of handwriting with attempt to determine someone's personality traits.

1. Check the slant. "The slant of the writing tells the emotional expressiveness of the writer," says Carlson. ...
2. Size does matter. The size of your handwriting has a lot to say about your mindset, personality, and emotional state. ...
3. Study your signature line.
 4. Handwritten notes can keep track of your daily to-dos or your gratitude lists, but the way you form and space your letters can also reveal a lot about who you are, at least according to graphology, or handwriting analysis.
 5. Is there any merit to it? Many consider graphology a pseudoscience, but the practice often imparts findings on courtrooms, hiring offices, and police stations. "Every letter symbolizes something to do with what's going on in your mind," says graphologist Michelle Dresbold, author of *Sex, Lies, and Handwriting*. "People think handwriting analysis is like voodoo or tea leaves; it's not. It's body movement from your brain. It's very logical."
 6. If you're tempted to put your handwriting under the microscope, we consulted Dresbold and fellow graphologist Paula Sassi of Handwriting Consultants International for their top profiling tactics.
 7. Before you read on, take out a blank sheet of paper and write down a few words. Make sure you have a mix of letters, including ones that require you to lift your pen off your paper to complete (like Is and Ts). Make sure you write them the way you'd write a normal sentence, since the spaces between words and letters also matter. End with your signature. Once you're finished, read on.

Mr. Devanshu Bhalla (Resource person) showcased the handwriting of many renowned personalities and discussed their personality .

Conclusion Overall a fun filled session, opened up minds to importance of handwriting in the digital world and how it reflect individual's personality

Time management is the process of planning and exercising conscious control of time spent on specific activities, especially to increase effectiveness, efficiency, and productivity. It involves a juggling act of various demands upon a person relating to work, social life, family, hobbies, personal interests, and commitments with the finiteness of time. Using time effectively gives the person "choice" on spending or managing activities at their own time and expediency. Time management may be aided by a range of skills, tools, and techniques used to manage time when accomplishing specific tasks, projects, and goals complying with a due date. Initially, time management referred to just business or work activities, but eventually, the term broadened to include personal activities as well. A time management system is a designed combination of processes, tools, techniques, and methods. Time management is usually a necessity in any project management as it determines the project completion time and scope. It is also important to understand that both technical and structural differences in time management exist due to variations in cultural concepts of time.

Conclusion:

Good take away for the learners and positive feed back was received from students.

Mr. Patel specializes in building and leading a strong process-oriented HR driving organization providing thought leadership on building engagement talent and career framework to curate enhanced employee experience.

Stress management is a wide spectrum of techniques and psychotherapies aimed at controlling a person's level of stress, especially chronic stress, usually for the purpose of and for the motive of improving everyday functioning. Stress produces numerous physical and mental symptoms which vary according to each individual's situational factors. These can include a decline in physical health as well as depression. The process of stress management is named as one of the keys to a happy and successful life in modern society. Life often delivers numerous demands that can be difficult to handle, but stress management provides a number of ways to manage anxiety and maintain overall well-being.

There are several models of stress management, each with distinctive explanations of mechanisms for controlling stress. Much more research is necessary to provide a better understanding of which mechanisms actually operate and are effective in practice.

Summary

Mr. Patel specializes in building and leading a strong process-oriented HR driving organization providing thought leadership on building engagement talent and career framework to create enhanced employee experience.

Stress Management is a set of techniques intended to help people deal with stress more effectively. The purpose of and for the motive of improving everyday functioning. Stress produces noxious physical and mental symptoms which vary according to each individual's situational factors.

Stress is part of being human, and it can help motivate you to get things done. Even high stress from serious illness, job loss, a death in the family, or a painful life event can be a natural part of life. You may feel down or anxious, and that's normal too for a while. Despite stress often being thought of as a subjective experience, levels of stress are readily measurable, using various physiological tests, similar to those used in polygraphs.

Evaluating the effectiveness of various stress management techniques can be difficult, as limited research currently exists. Consequently, the amount and quality of evidence for the various techniques varies widely. Some are accepted as effective treatments for use in psychotherapy, while others with less evidence favoring them are considered alternative therapies. Many professional organizations exist to promote and provide training in conventional or alternative therapies.

Report: Webinar By Ananya Maloo, Founder Of Nuut Job

Date : 14th April ' 22

INTRODUCTION:

TBH CIRCLE had hosted a Question & Answer webinar with Ananya Maloo and Anushree Maloo as their guest speakers. Ananya Maloo is a true entrepreneur with big dreams, aiming to build a brand intertwining education and entertainment.

WHO IS ANANYA MALOO?

Breaking the barriers and fighting against the stereotypes, **Ananya Maloo** is a bold woman and **entrepreneur**. Ananya kicked off her career working in the field of Content writing, followed by Public Relations, and then working as a Marketing Professional in the entertainment industry. Recently she closed a **deal of Rs 25 lakh for 20% equity on Shark Tank India** with her new business venture, "**Nuutjob**" which caters to products for male intimate hygiene.

ABOUT NUUTJOB

Based in Ahmedabad, founded by Ananya Maloo and Anushree Maloo **Nuutjob** is a men's intimate hygiene brand. Founded earlier this year.

Question and Answer session with Ananya Maloo and Anushree Maloo

The host asks Ananya what she learnt from the mistakes?

For which she answers saying, The segment they were in, was completely different, thus their entire journey was of making mistakes and figuring out what worked for them.

She also shares an experience when they initially ran Facebook and Instagram advertisements by spending a lot of money, this didn't help them to educate about the products, brand to the customers. But what really worked was to build the trust and validation in the minds of the customers.

The host next questions on how to build the trust in minds of the customers? Ananya Maloo states that it takes time to build the trust, especially with the segment they had chosen. No one can launch a perfect product and get succeeded in the very first attempt, we learn throughout the process and keep revising. We have to learn from the mistakes, like cutting down unwanted expenses, hiring the right logistics company, hiring right people for the right job. Errors are bound to happen, we have to treat them as

learning. The moment when we start to shed and crib about it, we cannot learn and we cannot hustle to improve, thus we'll become stagnant. She also believes that life is full of choices. She also says that she has learnt the importance of finance, budgeting, working on the formulations through making the mistakes.

The Host then asks how important is mentorship and Team? And Ananya answers by saying, She feels it is very important to have a mentor. As an entrepreneur it helps to take some important decisions with the help of the mentor. Mentor also helps as a cheer leader to push ourselves to do our best. It is also important to find the RIGHT mentor, who will help you to garner and not pull you down and says don't take the risk but play it safe. For their brand, her father was the mentor who helped them with a lot of elements. It is also important to find the right team. We should never think that the mentor has to be elder than us, experienced than us, even our employees can mentor us on things they are well versed with. Never have the approach that what I know is sufficient to run the business, we have to always try to extract as much as we can, that is what a good team gets you onto the table, things which we may not be good at, our team will fill the box with their skills, knowledge and expertise, that is the reason why we have a good team.

The next question was about How many people does she have at her team? For which Ananya answers, At the moment they have Four people, one managing accounts, other managing the logistics, another person managing the designing and social media. Other than these team members, they also have agencies who are taking care of websites, on-boarding, distributors are also part of the team. She also believes agencies play a very vital role for startups. Sometimes they do charge more compared to other employees. Once the business has grown a little, then hiring an individual is a better choice to handle the expertise than handing over to agencies.

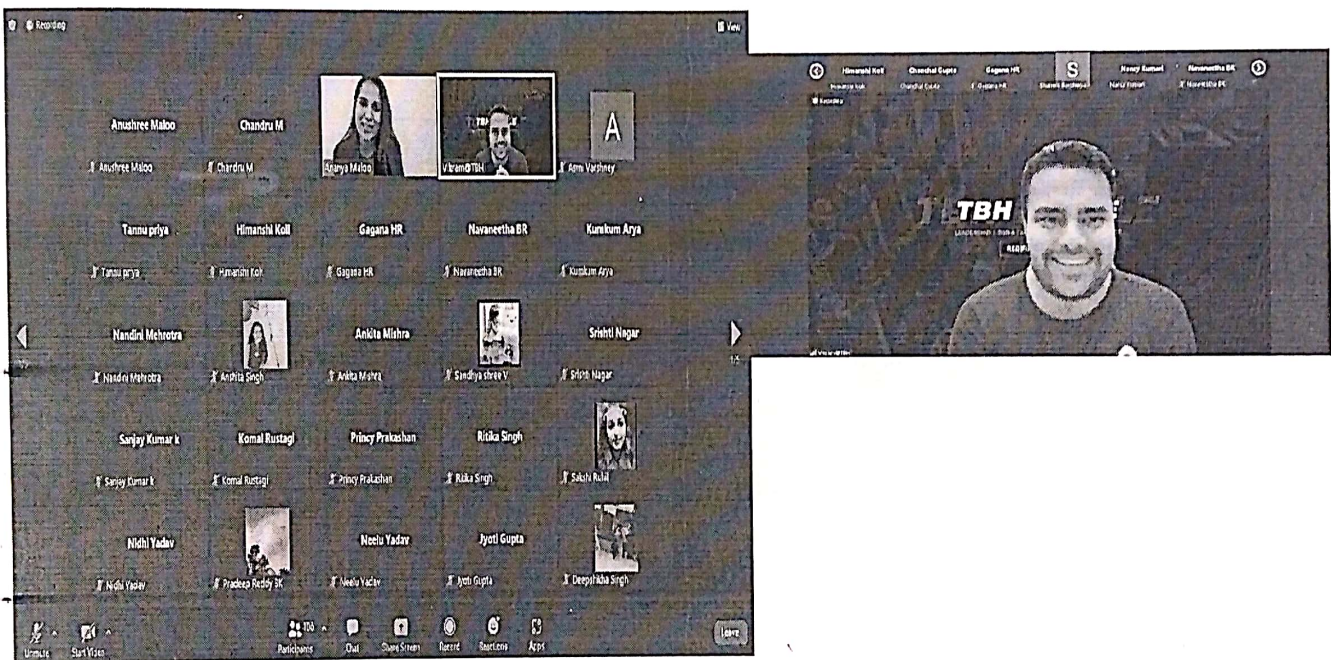

These were some of the interesting questions which were put forwarded to the new and budding Entrepreneurs Ananya Maloo and Anushree Maloo.

CONCLUSION:

It was a very informative and interactive session with the new and budding entrepreneurs. The two sisters have also shared their valuable experiences which is going to help us, the students to learn, grow, evolve and assist us when we take up entrepreneurship.

We are grateful for Krupanidhi Group of Institutions and Uzma ma'am, The Head Corporate Relations & Placements KGI, for providing us an opportunity to interact with the new entrepreneurs and learn from their experiences.

Student Career Guidance & Placement Assistance

Krupanidhi Group of Institutions has been consistently setting a record of campus placements amongst the top private Institutions in India and is proud that its students are highly preferred by top employers across different sectors and industries. Besides being a catalyst in driving change in the education sector, the Student Career Guidance and Placement Assistance Team guides students in choosing suitable career options by facilitating to work for top companies in their respective sectors.

Over 150 prospective recruiters have hired students from our campuses across various specialization over the last few years. This has been an outcome of a very precise placement process adopted by Placement Team. Dedicated placement team has always kept itself ahead of the peers by constantly innovating the hiring process thereby creating a niche for itself.

Apart from on boarding companies for Campus Placements. Placement Team also strives in narrowing the gap between institute and industry through various initiatives. A series of Guest Lectures are arranged regularly to keep students abreast of latest happenings in the industry. Workshops and Conferences are organized for all branches of students to have hands-on experience and also a platform to showcase their latest research work. Industrial visits are arranged especially for Non-IT branch students to have the first-hand experience of industry environment and to understand the working environment. As students connect well with their seniors, Alumni are roped in to give pep talks. This will help students understand the preparations required by them during the college days to become successful in their career.

Nidhi Tatia

**Founder Director at Dev Mantra Financial Services &
Optymoney,**

A seasoned professional, CA, CS, Information System Auditor, ISO trained and have more than 20 years of exp. in handling diversified finance functions, compliance management, direct & indirect taxation, international tax, project finance, business valuations among others. I specialise in M & A transactions and have the honour of leading various successful due diligence, buy/sell side advisory, transaction structuring and business negotiations. I am passionate about training and skill development and have conducted numerous sessions for startups and SMEs. I am fortunate to be part of Indian delegation to various countries, particularly with the Government of Karnataka and a strong believer of the India growth story. I am privileged to be knowledge partner for various government projects, financial literacy, women empowerment and a Mentor at Stanford Seed Spark Program, India, Ginserv Bangalore, apart from being official advisor for couple of StartUps.

Technology is the only enabler to build scalable and sustainable business models. We have launched a SaaS based platform to automate completely individual financial management, named as optymoney.com. Students are the future of India. Financial literacy at this level can play a pivotal role in the overall success of Goals in Life and will make them compliant citizens of the country. At Optymoney, our endeavour is to act as catalyst for your financial well being.
