Prof. P M Shyjan with his attitude can inspire many people and one of the best personalities and a good speaker addressed the students to talk about Public Speaking in the Finishing School Program. He bearing a master degree in Arts(English) has wonderful communication skills who could attract the students attention very easily.

Sir was so enthusiastic in teaching these students on public speaking.

Calling upon few students as volunteers sir had few activities conducted to the students. Sir with his speaking skills kept the entire session active for students and made it more interesting . Sir with his talent was able to make sum fun with the communication skills and how badly that would impact on the person .

He also gave few tips to the students in explaining about public speaking and its importance and sir also ensured that students were with a smile entire the session which was really not so easy these days.

Report Seminar on Handling of Success and Failure.

Realizing the need for Handling Success and Failure cancelling Cell KGI conducted Seminar on 2nd of April 2018. **Mr. Dipankar Majumdar**, who is one of TBM trainers, was invited as resource person. Being unable to handle failure or indeed success can be damaging the students. To teach our students how to deal with both, counseling committee had conducted this seminar all the faculties and the students had participated. Director asked coordinators to take care of the things for the smooth functioning of the event.

Speaker expressed that majority of people equate success almost entirely with external variables, not with their own inner growth. This makes them weak. Once success comes around, completely dependent upon the external variables that signify it; Instead of being able to sit back, relax, and enjoy the ride they often feel more pressure and anxiety. She explained how to overcome these problems.

Also, she motivated students by explaining how to overcome failure getting angry at you for messing up is a total waste of time. It serves no constructive value. It doesn't motivate you. It doesn't build your confidence and it certainly doesn't help you correct your mistakes. When you lose or otherwise fail keep in mind that within this disappointment, you'll find the secrets to your ultimate success.

Students and Faculty liked the session and felt its motivating.
