**PART-B
PROPOSED RESEARCH WORK**

1	Project Title	Automatic Extraction of Feedback and Correction mechanism using sentimental Analysis and routing Algorithm in Digital Marketing
2	Introduction	In current trends, feedback plays a very major role for the success of the organizations as it assists the people on which section requires improvisation. It also motivates and uplift the employee's performance which directly links to the job satisfaction and growth in the organization. so as organizations mainly focus on the success growth, negative feedback needs to be corrected rapidly without spending more time and efforts. Therefore if the corrections is done automatically, then the transformation of the negative feedback to positive feedback can be done easily by bringing down the time. For this automatic process, firstly, the emotion in the feedback should be identified automatically and this can be achieved by sentimental analysis. Sentiment analysis is contextual mining of text which extracts and identifies the subjective information from the feedback, and helps the organization to understand the social sentiment of their service while monitoring online conversation. Secondly, the negative feedback can drive to the respective employee or the department for the automatic correction which can be achieved through the routing algorithm.
	Origin of the Research Problem	Automation of extracting the social sentimental from the feedback and taking the corrective measures on the negative feedback.
	Inter Disciplinary	E-Commerce

 Principal
 Krupanidhi Group of Institutions
 12/1 Chikkabellandur ViHage,
 Carmelaram Road Post Varthur Hobli
 Bangalore - 560 035

3	Objectives	To identify the social sentiment in the feedback and drive them to the respective person or the department automatically to take the corrective measures on the negative feedback.
4	Methodology	Using sentimental analysis and routing algorithm
5	Month-Wise plan of Work and Targets to be achieve	<ol style="list-style-type: none"> 1. First 4 months – extracting the emotion from the feedback. 2. Second 5 months – Routing to the appropriate person and department. 3. Third 3moths Final results.
6	Name of the agency from which the assistance was approved	Simple Lecture
7	Amount Proposed	200000
8	Title of the Project for which assistance was proposed	Automatic Extraction of Feedback and Correction mechanism using sentimental Analysis and routing Algorithm in Digital Marketing
9	The above project is not funded by any other agency	Yes
